VIOLET (Blue) Color Class 76-78

We have added several new blues this year. Outstanding and the nearest to a true blue is King of the Blues listed in the front of the catalog. Firmament, Musio Clementi and Abu Hassan, a deep violet blue, are all good commercial prospects. Ravel is very outstanding in a larger flowered blue—made a big hit at the U.P. State Fair this past summer. Have a very large stock of Abu Hassan and can quote in quantities.

GLADIOLUS SEEDS

10 in a package for 25c

This past summer we made some very nice crosses with some of the new Holland varieties, and have a limited number to offer for sale. Seeds should be planted in a hot bed or some other like place where they can be given lots of attention, especially when the seedlings are very small and tender. They should also be shaded from the hot summer sun, and watered plenty to keep them growing. Seeds are not guaranteed to grow—just like any other seed of other flowers and plants too many things can happen after you have them planted. But it's lots of fun to try and grow these seeds and see the new colors and combination of colors. You have just as good a chance as the next fellow to get a world wonder. Every seed will produce something different. Please order by number.

RANDOM NOTES

Mrs. Ravet often wishes she was as lucky as our gladiolus bulbs, because they travel all over the world. In the winter months we ship to all the southern states, Hawaii and the Philippines; in the spring we ship to all the rest of the states (because we have customers in all 48 now), Canada, Europe, and Australia.

* * * * *

We all enjoyed meeting many of you fine folks, either when you visited our farm and gladiolus fields, or at the gladiolus shows and the many fairs we attended this past summer of 1948.

* * * * *

Be sure to attend at least one gladiolus show and take part by making entries in it. You will enjoy your glads that much more when you see them winning ribbons for you. There are the state shows and regional shows. We want to make special mention of a new Gladiolus Show which will be held Aug. 19-21, the U.P. of Michigan State Gladiolus Show, which is being sponsored by the UPPER PENINSULA STATE FAIR at Escanaba, Michigan.

* * * * *

Cut flower growers, we have had very good success selling all our surplus blooms by packaging them in cellophane and putting them in retail stores. If you would like any information on the how and so forth just drop us a line. We are here to help in any way we can.
